## Summary

Hello, my name is Nasrin Mokhtari, born in 1998. I am a front-end developer specializing in web development and design. Experience and skills in

html, css, javascript, git, react, ...

I am looking for new opportunities in the world of front-end development and I love new and updated technologies

## Experience

### Frontend Developer

Favamajd

Apr 2023 - Aug 2023 (5 months)

In about 6 months of work, which was my initial work experience, I made a lot of progress and got to know new technologies in front-end and back-end and became more interested in learning more. Due to the company's financial issues, we all left the company forever.

This site that I created was not supposed to use a library or something related to the Internet because it was supposed to be used as an application and used in private formats for managing users and groups in corporate systems, that's why I want a photo of its appearance. to put
